

**Karla Solís**

**Karla is currently carrying out independent research on how women support adapting to climate change. She has spent the last 20 years working in the energy, climate change and clean technology topics; starting in Peru, from there to England, Germany, Grenada and Colombia.**

**From 2013 to 2016 Karla led the teams of UNFCCC Regional Collaboration Centres in Latin America and Caribbean. Karla worked for UNFCCC since 2007; her work there focused on supporting the management of the carbon trading architecture under UNFCCC; assessing clean technology project proposals; delivering capacity building trainings to governments and private institutions. Prior UNFCCC, Karla worked for a large energy company in the UK; her role was to establish opportunities between climate change policies and businesses. In Peru, she specialized in fermentation and distillery processes in the brewery industry.**

**Since 1999 Karla has been an active member of Women Engineering Society in the UK; she has been involved in Mentor SET program as a mentee and mentor.**

**Best wishes,  
Karla**
